Profile

Motivated Artificial Intelligence and Machine Learning undergraduate (3rd year, B.E.) with a strong interest in applying data-driven solutions to real-world problems. Actively building technical skills through academics, hands-on learning, and continuous self-improvement.

Education

Artificial Intelligence and Machine Learning,

2023 – Present | Bangalore , India

Aditya College of Engineering and Technology

Studying Artificial Intelligence and Machine Learning with a strong focus on Python, data structures, and algorithms. Gained hands-on experience through academic projects.

Pre - University Course,

2021 – 2023 | Bangalore,India

Bishop Cotton Women's Christian Independent PU College

Opted Course - PCMC

Secondary School, *St Charles High School*

2018 – 2021 | Bangalore,India

Primary & Middle School,

2012 – 2018 | Bangalore,India

Holy Angels Higher Primary School

Languages

English

Malayalam

Kannada

Tamil

Technical Skills

- Python
- Data Analysis
- Data Visualization
- SQL
- API Integration
- Machine Learning(Basics)
- Deep Learning(Basics)
- Generative AI(Basics)
- Git & GitHub

Projects

AI-Powered Brain Stroke Detection Sysytem,

2026 – Present

Deep Learning and Medical Image Analysis Project

- Developing an AI-based system for brain stroke detection using CT scan images.
- Designing a medical dashboard using React.js for scan upload and result visualization.
- Implementing CNN-based stroke classification with confidence score prediction.
- Integrating heatmap and overlay visualizations for explainable AI analysis.
- Planning Flask backend integration for real-time prediction and report generation.

Air Quality Index (AQI) Predictor,

10/2025 – 11/2025

Data Analysis and Machine Learning Project

- Developed an AQI prediction system using Python and real-time environmental data.
- Integrated weather and air quality APIs to fetch and analyze live data.
- Implemented city-wise AQI prediction and data visualization features.
- Built backend logic for data processing and prediction generation.
- Added historical data storage and reporting functionality

Courses

Data Analytics with Python, IIT Roorkee

01/2026 – 04/2026 | Bangalore, India

- Successfully completed the 12 - week NPTEL certification program offered by IIT Roorkee
- Gained practical knowledge in data preprocessing, exploratory data analysis, visualization, and python - based analytics

Interests

- Aptitude
- Planning travel Itineraries
- Singing
